Line up:

1. VJ: **Peter Greenaway**
2. DJ / Composer: **Huibert Boon**
3. Producer/Tour Manager (NOTV)
4. Logistics Manager (NOTV)
5. Technician (BeamSystems)
6. Video assistant

Soundcheck: minimum 4 hrs in advance. Calibration of PA-system will take about 1 hour.
Assistance of PA-system sound engineer is required.

Duration: **15 minutes introduction speech + 60 minutes performance** (no break).
On request: **20 minutes DJ performance** in advance (audio only).

Greenroom is required. Please check requirements with NOTV in advance.

SET UP & EQUIPMENT:

NOTV brings: (please check with NOTV in advance!)

- **ROAD:** Shows in Europe within 1000 km distance from Amsterdam (road): we bring a 50" plasma touchscreen on a stand + backup system.
FLIGHT: If distance is more than 1000 km from Amsterdam (flight): venue provides (46" to 50") touch screen (see below); we bring a 22" backup touchscreen.
- Video control system (19" rack system + monitor)
- Cables
- **5 video outputs:** DVI, to be plugged into the venues projection facilities.
If necessary we provide RGBHV/VGA adaptors. Please let us know in advance.
- **6 audio outputs:** XLR or 1/4" Jack (6,35mm), balanced @ +4dBV, to be plugged into the venues audio system, hard-panned to speakers according to PA-setup (see below).
- NOTV brings all video and audio material (CDs/Harddisc).

The VENUE provides:

In case of FLIGHT (> 1000 km from Amsterdam): SCREEN + STAND:

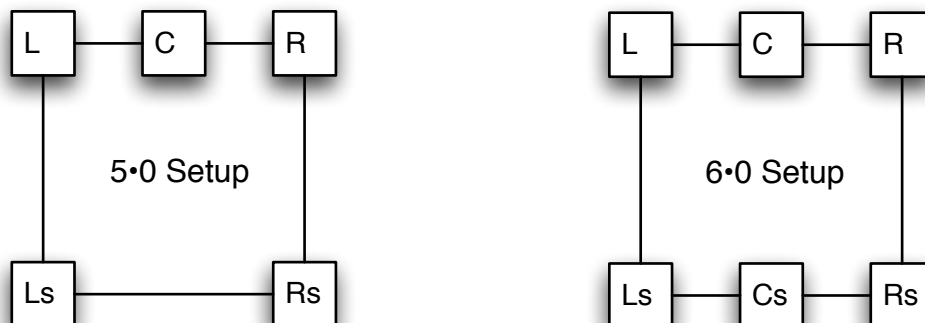

- 1 x **Samsung 460Tsn 46" touch screen** (*check other types with us in advance!!!*)
- If you can not arrange a compatible touch screen you shall provide a standard 50" **Pioneer plasma screen** (types PDP-50MXE or PDP-502MXE).
In this case NOTV has to bring our own 50" touch **overlay system** (which fits the PDP-50MXE or PDP-502MXE plasma screen arranged by venue) at additional costs.
- **1 stand** (e.g. truss) for the screen + **connection plate** (height to center = 105 cm).
- **Please check solution with NOTV in advance!**

Projection system:

- Minimum requirement: at least **5 projections (5 projectors + 5 screens)**.
Preferred setup: 5, 7, 9 or 12 screens, e.g. hemispherical (180°). Discuss with us in advance the best setup!
- The projection screens shall be positioned next to each other (adjacent).
- Screen aspect ratio **MUST** be: **16:9**.
- The projectors shall be well **calibrated** and **equal** in color and luminance.
- Minimum projector resolution: **1280x720 pixels**.
- Luminance according to screensize:
minimum size: **6,00m x 3,38m** screensize; at least 6000 AnsiLumen
We prefer the biggest screens possible, with highest luminance.
- **VIDEO PROJECTION QUALITY SHALL BE PERFECT.**

Audio system:

- Full multichannel **PA sound system** (we play loud!) in one of the following setups:

All speakers shall be equal. Check speaker-placement with NOTV in advance!

- **1 microphone** (intro speech) + **1 extra microphone** (for translator, if applicable).
- Proper (passive or active) **DI's** with switchable ground-lift for all line-outputs (max 6) of our playout system.

VJ / DJ booth (stage):

- A combined **single booth (stage) for VJ + DJ together (2 persons)**.
- Space of at least 5 x 4 metres, **located in the audience** (not on stage!!).
- Venue shall provide (for DJ) 1 computer **monitor** (flat display, 19" to 24" widescreen).
- **DJ-table:** size 120(W) x 90(D) x 90(H) cm / 47(W) x 36(D) x 36(H) inch (approx.).
- Small **audio premix table** (for our sound engineer next to VJ/DJ booth).
- Separate power supply **220 Volts, 16A**.
- **Cooling** is needed for our equipment in warm conditions. Please provide **sunprotecting shelter** for artists & crew (open air performances) and equipment **cooling fans** (on stage).

Light:

- Introduction speech: **WHITE** light on **VJ** and (if applicable) **translator**.
- Performance: **2 BLUE** (dimmed) **spotlights on artists:** one on each artist.
- 1 small table-mounted **spotlight** for DJ table.

Beverages:

- Please provide drinks during buildup, rehearsals & performance (water, beer, white wine).

VENUE:

- A **floorplan/layout** of the venue shall be provided in advance. If possible, including photographs. Please send to: info@notv.com. We will assist you in optimizing the setup.
- **VJ/DJ booth shall be positioned in the audience** (so the audience can walk around and watch the artists). **Audience** shall therefore preferably **NOT be seated!!!**
- **Projection screens** shall be clearly visible from VJ/DJ booth.

All NOTV systems need **220V / 50 Hz power supply**.
